PRIMARY CARE

Dear Delegates,

On behalf of the organising committee we would like to welcome you to University College Dublin for the 3rd Irish Street Medicine Symposium.

The theme of the two days includes a number of topics from Mental Health to Hep C treatment to Migrant Health. Our aim is to improve health care for vulnerable people through sharing information about services, identifying gaps and highlighting what already works.

We hope you will avail of the many opportunities to connect with 'Street Medicine' colleagues from around Ireland and abroad. The two days promise to be an exciting and educational gathering and we would like to thank you for taking the time to attend this Symposium.

Kind Regards,

The Irish Street Medicine Symposium Team
